

Institute of Water Policy Virtual Seminars October 2020

The role of Nature-based Solutions to reduce hydro- meteorological risks

Prof Fabrice Renaud

Professor, School of Interdisciplinary Studies, University of Glasgow, Scotland

Date & Time:

Wednesday
14 October 2020,
4:00pm - 5:15pm

Venue:

Virtual Webinar via Zoom. Registrants will receive an email with a link to join the webinar on Zoom a day before the event.

Register now for IWP's webinar on the role of Nature-based Solutions (NbS) to reduce hydro-meteorological risks by Professor Fabrice Renaud, from the University of Glasgow.

Taking place on the 14th of October, Fabrice Renaud will use examples from two projects, OPRANDUM and the Living Deltas Hub, to illustrate how NbS are perceived by stakeholders, how they can reduce risks, and how they can contribute to protecting coastlines. Join this webinar to learn more!
